THIS IS UNEVALUATED INFORMATION

- 25X1 1. The AEG Fabrik für Transformatoren und Hochspannungsschalter (TRAFO), Berlin-Oberschneeweide, Wilhelminenhofstrasse 83-85, which belongs to the VEM (Vereinigung Volkseigener Betriebe der Elektrotechnik und des Maschinenbaus) has now started on a big program of electro-motor construction, details of which will be forthcoming.
2. The organization is as follows:
- 25X1 a. Technical director: Herr Dr. O. Mayr (also chief of the Berlin branch of the Chamber of Technology)
- 25X1 b. Commercial director: Herr Hanisch (convicted member of the SED).
- c. Chief of Department for Transformer Construction: Herr Taube.
- d. Chief of the Construction Department: Herr Zielert.
- e. Chief of the Converter Construction Department: Herr Valther.
- f. Department High Tension Switches 2500 mva, 100 kv design: Herr Bauerschmidt.
- g. Construction: Herr Schulz.

3. Capt. Grois, acting chief (for Lt. Col. Sonin) of the Scientific Technical Department of the Ministry for Power Plants (WTO/WES), Berlin-Rummelsburg, Hauptstr. 9-13 seems to exert considerable influence on the AEG plant. His position is not quite clear within the AEG Factory which patently is people-owned. Apparently Grois has the authority to issue certain directives and orders pertaining to the construction of electro-technical equipment.
4. Bureau No. 21 of the Scientific-Technical Department of the Ministry for the Electro-Industry (WTO/WEP Code No. 43/23) located on the premises of the firm

Roch und Stersol, Dresden N30, Overbeckstr. 48 has been dissolved. The Soviet specialist for the closing of Soviet Technical and Scientific Bureaus seems to be a man named Gordiev.

5. The specialists from Bureau No. 21 have been farmed out to other bureaus to prevent them from going West. Herr Arnold, formerly with Bureau No. 21 has now joined the AEG TRAFU while Dr. Henschel", also formerly with Bureau No. 21 is now with Zeiss-Ikon, Berlin, Rheinstr.

25X1 * Comment: Dr. Henschel is probably identical with Dr. Helmut Henschel, former director of the Zeiss-Ikon, Göttingen, Berlin-Friedenau, Rheinstr.
